Re: City of Superior Exposition District

The Wisconsin Building Trades Council supports a City of Superior Exposition District. An exposition district will provide job opportunities for City of Superior residents. The exposition district will reduce unemployment and expand business growth. It would also provide additional revenue to the community, increase the tax base and promote tourism.

The Wisconsin Building Trades Council (WBTC) is made up of 15 Building Trades Unions and represents 40,000 Building Trades' members and seven Building Trades Councils in the State of Wisconsin. The WBTC is committed to building a skilled workforce for a growing Wisconsin. The WBTC supports the Northern Wisconsin Building & Construction Trades Council and its Building Trades Members.

The City of Superior Exposition District will be an economic development tool that will provide economic benefits to the City of Superior and the surrounding area. Building an exposition district will put building trades members to work and enable the building trades to recruit city residents for apprenticeships in the building trades.

Respectively,

Dave Branson
